

Dear Customers,

We are proud to introduce the evolution of one of the world's most successful and most copied rear set:

## ***The AS31GT2***

Besides the known colors black, gold and titanium we will make the **GT2** in the combination of **black-silver** (BS).

The design of the foot pegs, carbon-heel guards and adjusting plates was slightly **upgraded** to keep the unique and original character of the **AS31GT**.

There are also technical detail-improvements.

The first application of the **AS31GT2** is the

**BM01-\*** for the **BMW S1000RR**.
